

Inspiring New Science In Guiding Healthcare in Turner Syndrome Registry

Status: RECRUITING

Eligibility Criteria

Sex: FEMALE

Age:

Healthy Volunteers: This study is NOT accepting healthy volunteers

Inclusion Criteria:

1. Individuals with TS and TS variants as defined by the TS Clinical Practice Guideline definition (karyotype consistent with TS, phenotypic female, clinical feature(s) of TS)
2. Informed consent/assent as appropriate

Exclusion Criteria:

- a. Lack of a TS diagnosis on file

Conditions & Interventions

Interventions:

OTHER: No intervention

Conditions:

Turner Syndrome

More Information

Description:

INSIGHTS is a registry research study that collects key information on medical history for girls and women with Turner syndrome and the clinical care they receive. This includes genetic tests, imaging, medications, and more for hundreds of patients seen at a number of clinics across the US. In addition to learning a lot about the current state of health for individuals with TS, INSIGHTS serves as an infrastructure to conduct future studies are meaningful to patients and their families.
