

A Multicenter Access and Distribution Protocol for Unlicensed Cryopreserved Cord Blood Units (CBUs)

Status: RECRUITING

Eligibility Criteria

Sex: ALL

Age:

Healthy Volunteers: This study is NOT accepting healthy volunteers

Inclusion Criteria:

- Disorders affecting the hematopoietic system that are inherited, acquired, or result from myeloablative treatment
- Signed informed consent (and signed assent, if applicable) obtained prior to study enrollment
- Pediatric and adult patients of any age

Exclusion Criteria:

- Patients who are receiving only licensed CBUs
- Cord blood transplant recipients at international transplant centers
- Patients who are enrolled on another IND protocol to access the unlicensed CBU(s)
- Patients whose selected unlicensed CBU(s) will be more than minimally manipulated

Conditions & Interventions

Interventions:

DRUG: A multicenter access and distribution protocol for unlicensed cryopreserved cord blood units (CBUs)

Conditions:

Hematologic Malignancies, Inherited Disorders of Metabolism, Inherited Abnormalities of Platelets, Histiocytic Disorders, Acute Myelogenous Leukemia (AML or ANLL), Acute Lymphoblastic Leukemia (ALL), Other Acute Leukemia, Chronic Myelogenous Leukemia (CML), Myelodysplastic (MDS) / Myeloproliferative (MPN) Diseases, Other Leukemia, Hodgkin Lymphoma, Non-hodgkin Lymphoma, Multiple Myeloma/ Plasma Cell Disorder (PCD), Inherited Abnormalities of Erythrocyte Differentiation or Function, Disorders of the Immune System, Autoimmune Diseases, Severe Aplastic Anemia

More Information

Description:

This study is an access and distribution protocol for unlicensed cryopreserved cord blood units (CBUs) in pediatric and adult patients with hematologic malignancies and other indications.
