

National Collaborative to Improve Care of Children With Complex Congenital Heart Disease

Status: RECRUITING

Eligibility Criteria

Sex: ALL

Age: Up to 15 month(s) old

Healthy Volunteers: This study is NOT accepting healthy volunteers

Inclusion Criteria:

- Fetuses or newborns diagnosed with HLHS or other univentricular condition
- Intended to undergo Norwood procedure

Exclusion Criteria:

- None

Conditions & Interventions

Interventions:

OTHER: Collaborative Learning Network

Conditions:

Hypoplastic Left Heart Syndrome (HLHS)

More Information

Description:

The purpose of this initiative is to improve care and outcomes for infants with HLHS by expanding the NPC-QIC national registry to gather clinical care process, outcome, and developmental data on infants with HLHS between diagnosis and 12 months of age, by improving the use of standards into everyday practice across pediatric cardiology centers, and by engaging parents as partners in the process.
